VIDEO AND PHOTOGRAPHY

The Association is becoming increasingly concerned about the new wave of ***mobile telephones and tablets with a photographic capability***, enabling the capture of both static & moving images. Used responsibly, such devices are perfectly safe, but sharing images widely may betray a confidence or even an identity & such information may help those who might want to harm children.

The use of such equipment is difficult to control but we can all be vigilant & ***if you have any concerns in this area, please bring them to the attention of someone responsible.***

This event may be photographed and videoed. Static images may be displayed on our website or at the venue and used to promote the sport at this event and events in the future. Moving images may be displayed at the venue and used to produce DVD's to be sold at the event.

British swimming work closely with our experts to ensure that in making these images available to enhance the presentation of the event and that we are not putting any children at risk in any way. If you have any concerns, please refer to Wavepower Document.

The document can be found at www.swimming.co.uk

If you have any concerns with your child being photographed at our events, please discuss your issue with any of the event management team. Robert Hart, Diane Lee, Gary French.
